DANDELI WILDLIFE SANCTUARY

The magnificent Dandeli National park abounds with a richness of Flora and Fauna. The Park is generally undulating with steep slopes, picturesque deep rivers and breath taking valleys. The jungle of Dandeli is typically a moist Deciduous, semi-evergreen, with pockets of evergreen forests.

DANDELI WILDLIFE SANCTUARY

Inside the National Park, are a number of tourist attractions such as – Kavala caves, which are caves formed by volcanic activities with stalagmite formations.

A particularly huge stalagmite is reversed by the locals as a 'Shivling'.

Syntheri Rocks, monolith of granite, with the Kaneri river gushing ferociously by its side, is a spectacular sight.
