THE DENSE FOREST

KANHA NATIONAL PARK

Kanha national park trapped in a horse shoe shape valley is considered one of Asia's finest and largest National park. Dominated by dense Sal and Bamboo forest, and the action packed kanha meadows cover an area of 1945 sq km, ranging from an altitude of 450 to 950 mtr. Kanha is the only habitat in the world of the hard ground Barasingha, along with 35 species of mammals, 270 species of birds and a variety of snakes and other reptiles.

KANHA NATIONAL PARK

Jungle safaris remain the highlight of the trip which are conducted early morning and late afternoon for best wildlife sighting, open jeeps accompanied with naturalist help in tracking the elusive Tigers through its footprints and alarm calls of its prey species. This indeed adds to the thrills along with excellent sighting of deers ,antelopes and a variety of other mammals and birds. Indeed an experience never forgotten.
